Measure, Appointment or HB4100  
Topic:

Corporations operating at the CEI Hub must be required to hold sufficient insurance to cover a worst-case accident scenario resulting from their operations. Coverage must include earthquakes, since an earthquake is a known risk at the CEI Hub's site. Self-insurance must be limited and evaluated critically, since corporations have a long record of creating corporate structures that greatly limit their risk exposure and leaving recovery costs to affected communities.

I request that you amend the original bill as requested by Representative Isadore to achieve these outcomes. I SUPPORT a bill with these amendments.
