I oppose this bill for so many reasons. I was born in North Portland, where I reside still. I am a member of the Bird Alliance, have my entire yard flipped 13 years ago and enrolled in Native American and a Native plant perennial gardener, former runner where we trained on the Forest Parks trails. Forest Park, our beautiful local &, state parks, wildlife, make Portland unique! We have the best cleanest water, am proud that efforts have brought back Native salmon, our spotted owls and murrelets. All of these tremendous efforts will be lost if we allow any clear cutting of our forests. It will negatively impact the 7 generations. Also our drinking water and air quality will be ruined with our trees and the ecosystem of animals we have protected will become extinct. Everywhere I see tons of litter and trash and it breaks my heart because I used to be proud to live in the City of Roses. If this bill is not opposed I will definitely plan on moving out of Oregon.
