I am writing in support of HB4126. This seems like a very common sense approach to looking for new ways of funding our roads in Oregon. As the driver of an EV I understand that in order to maintain our roads and bridges in Oregon in safe and usable condition we all need to contribute monetarily to that goal. As EV's continue to grow in popularity and make up a greater share of vehicles on our roads, as they inevitably will, new ways of funding our roads need to be found. This system seems like a good start to find an answer to this issue.

I support HB 4126 and ask that you do the same.

Respectfully  
Peter Kugler
