The Petition I signed, along with 250000 others, was to force this to a vote in the November 2026 election. If we wanted it sooner, we would have demanded that. The State legislature ignored the very clear majority when they originally passed this law, and the Governor delayed signing the bill until the last moment. Even then, in short order, 250000 signed it. By now it should be clear that the will of the people you all represent is against this change, please do not make the same mistake you all made in passing the bill in the first place. You may have the right and power to change the date, but we will not forget your poor choices as well as your disregard for our voice.
