Measure, Appointment or Topic:

SJR203

“Except in specified circumstances” What are these specific circumstances? Who will be specifying these circumstances and what determines is a circumstance worth having or not having a mask for privacy sake.

There has been an 800% increase of threats on ICE officers. The only intention of this bill is not for the people, it is to stop law enforcement from doing their job. This bill puts ICE officers at RISK of being even more threatened. Have some decency and respect for these officers and their families at home whom you risk being threatened as well. We Oregonians oppose the bill and demand you keep ICE officers protected and secure as they are doing for us.
