SB1555

As the parent of a 4th grader, I know the QEM needs to be updated to provide clear goals that help our schools push for better outcomes - and, crucially, the data that determines funding to reach those goals. Unfortunately this bill does not hit the mark. With any change, we must ensure accountability to Oregonians, public oversight, and parental involvement. Despite the intentions of this bill, I worry it could cause more harm. Please focus on increasing revenue so Oregon has the funds schools need to put more staff into student-facing positions.
