Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SJR203

I totally disagree with SJR203. We want the dangerous noncitizens removed from this country. How can that happen if we don't work with ICE to find and remove them. Why do you want to protect criminals first? At the very least you should turn over those criminals that are in our jails and not let them go back in to our communities to repeat offender again.
