

Submitter: Michael Brainard  
On Behalf Of: Dash 2 Amendment only  
Committee: Senate Committee On Health Care  
Measure, Appointment or Topic: SB1529

Chair Patterson, Vice-Chair Hayden and the Senate Committee on Health Care  
I would like to speak in support of the dash 2 amendment. I find it highly inappropriate  
that a committee would place a "study bill" in a short session. Short sessions are to  
make adjustments from the 2025 long session or other urgent matters. If this bill were  
to meet this criteria, then the bill would not need a gut and stuff dash 1 amendment.  
The dash two amendment will allow for the legislature to come back in 2027 to make  
the needed updates with a robust conversation.

Thank You
