

Submitter: Tania Neubauer

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

Please, do not pass this misguided bill. Don't pave over the best farmland in the world to permit data center sprawl that has no guarantee of any useful return to the people of Oregon but only harms our environment. Once land is designated for this development its character will be destroyed for the purpose of enriching a few individuals. Washington county doesn't need more tech sprawl... it needs to retain its unique and beloved farms to feed the people of our region. People here have rejected this over and over, but like a zombie it keeps coming back. Spend your precious time in public office figuring out a way to kill this zombie once and for all, rather than passing this bill that only facilitates greedy tech development with no public benefit.
