On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1587

Thank you for this opportunity to testify.

Personal data is just that, Personal. In this age of AI and ubiquitous cameras, it is extremely important that the government provide guard rails to protect civil liberties. That's why I am urging you to support SB 1587. This bill restricts data sharing by prohibiting data brokers from selling or providing brokered personal data for the purposes related to civil law enforcement and unless a court issues an order or judicial warrant. SB 1587 also provides legal recourse if a data broker violates this prohibition. Individuals can file a lawsuit to seek economic and noneconomic damages. SB 1587 directs the Department of Consumer and Business Services to impose civil penalties on data brokers who violate the law.

Now is the time to stand up for civil liberties. Support SB1587.

Sincerely,  
Hillary Kittleson
