Committee:

Senate Committee On Finance and Revenue

Measure, Appointment or Topic:

SB1586

I oppose SB 1586. I live very close to the existing data centers that have been built along Evergreen Parkway. They all currently have for lease signs in front of them indicating these data centers have been built, but are not slated for use. To me that indicates we do not need to build more. There are already many buildings for office use that have been built along evergreen Parkway that are also sitting empty with for lease signs. If this is not indicative of misuse of land appropriation, I don't know what is.
