Katy Vaughn

On Behalf Of:

Committee:

Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or

SB5701

Topic:

I urge you to support SB 5702, particularly as it applies to providing funding for a Fire Station in the Disston area of the Row River Valley. Our valley is particularly vulnerable to fires as we are a long, narrow canyon with only one road in and out. A Fire Station at Disston will dramatically increase the ability of the Row River Fire Department to protect our community. I have no doubt that a station there will be a bulwark against forest fires reaching our community and will doubtlessly save property and more importantly, lives, in the coming years.
