

Members of the House Judiciary Committee,

Please support HB 4001.

At this moment in which we are faced with so many reports from across the country, from small towns to big cities, of DHS enforcement agents terrorizing people by using excessive force, unlawful arrests, refusal to provide access to lawyers, and other forms of lawlessness, we are in desperate need of ways to address and correct this illegal and unconstitutional behavior.

HB 4001 will help by providing a framework and template for Oregonians to address this dangerous and illegitimate behavior.

This essence of a democracy is the ability to live daily life without fear of government violence and lawlessness.

Please support HB 4001.

Sincerely,

Roscoe Caron  
Eugene
