Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SJR203

I am fully in support of law enforcement officers and believe their ability to do their jobs to keep our communities safe is important. Their job to help enforce our laws also requires transparency on their part as their role holds power over others. People interacting with officers need to know who they are interacting with. Officers should not be allowed to be masked to obscure their identity and the public should be able to identify them with badge numbers or other identifying information. Thank you for your consideration and bringing this important issue in front of Oregonian voters to consider this constitutional amendment.
