

Submitter:

WENDY Wells

On Behalf Of:

Committee:

Senate Committee On Education

Measure, Appointment or Topic:

SB1572

The measure sounds good but as written raises concerns about equity, students rights, and access to inclusive education.

We don't need punitive removal mechanisms and rigid proficiency measures, we need to invest in restorative practices, inclusive frameworks for discipline and expand supports for multi tiered support that address learning and behavior challenges.

The bill does not offer funding to train staff.
