Measure, Appointment or Topic: HB4105

I oppose house bill 4105.....I am appalled at the ongoing greed and shortsightedness represented by this and other similar bills that at great expense to Oregon taxpayers, strip our state of it's most precious resource, our beautiful trees, which we need not only for the aesthetic beauty that they bring, but also to the wildlife they house, the air that they clean, and the ecosystems they support.

The bill is unnecessary. The Department of Forestry already has processes in place to establish timber harvest goals and regularly meets or exceeds those goals, often at the expense of water quality, imperiled species, and carbon storage.

Please vote no on this bill.

Thanks
