Measure, Appointment or Topic: HB4105

I am writing in opposition to this Bill. I have worked as an advocate of climate resilience to establish a strong use and appreciation of natural resources in Oregon. We must continue the work that has been done and ensure that future generations have the timber, clean water and natural amenities that offer citizens the ability to know the value of the land and it's resources. Do not move this Bill forward. Please do encourage groups to meet and work together for understanding the land and the benefits the land provides.
