Joint Committee On Ways and Means Subcommittee On
Capital Construction

Measure, Appointment or SB5701

Topic:

Dear Members of the Legislature:

Please help us fund the Disston rural fire station in the Row River Valley. As we have seen, a fire in our high-risk area can mean catastrophic consequences for the entire valley and Cottage Grove, which relies on the Row River watershed for their water. Local response means faster responses to both fire and medical emergencies. My family and community would be grateful for your support for this very important endeavor.

Sincerely, Jill Limonoff
