Capital Construction
Measure, Appointment or Topic: SB5701

As a resident of our tri city community for over 50 years I have seen the tremendous benefit and impact that our food bank has provided for our neighbors over the long term.

I am proud to contribute money monthly and often bring food contributions to the center.

A central location and facility is imperative to continue this work.

We are in it for the long run.

Please fund this invaluable project.

Thank you.
