Vote No on SB 1586. This land is tier 1 and 2 soil and should remain agricultural until at least 2065 as previously planned. SB 1586 is a corporate end-run around our land use laws and is being presented with little notice and scheduled the only public hearing at 8 am on a holiday. We do not want more Data Centers draining our aquifers and poisoning our water. This land grab has been proposed and defeated five times. It is still shady and a terrible idea. Vote No.
