On Behalf Of: Rustic Ranch Mobile Home Park  
Committee: Joint Committee On Ways and Means Subcommittee On Capital Construction  
Measure, Appointment or SB5701  
Topic:

I am in support Of the grant for Terreboone sewer system . I have owned the Mobile Home Park In Terreboone for over 30 years our tenants low and fixed income residents. We have been notified by DEQ and the deschutes county health department that our system does not meet current standards and must be replaced . Terreboone is very rocky and we have been unable to find another area on the property to install a new system. I have been told the only possible fix is a sewer system . We are not alone in this situation other businesses have closed and had mayor problems including the grocery store . If this proposed sewer system is not completed We may have to close the park which would be a hardship for 30 families.
