Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

We have been watching the periodic and incremental movement of the UGB into the rural area over 39 years near my farm. In addition to growing crops we actively support the wildlife that also lives on this biodiverse land and forest that we are trying to protect. The frogs are ribbeting in the pond already - in early February. This is earlier than ever - and not a good sign. It's a sign of global warming and this year drought.
