Resources, and Water

Measure, Appointment or Topic: HB4105

Co-Chairs Helm and Owens and members of the committee,

As an advocate for Oregon's forests, I encourage you to support HB 4105. This common-sense bill directs the State Forester to establish and publish sustainable harvest levels on state forestland and improve transparency and accountability in how our state forests are managed. It does not increase harvest levels or weaken environmental protections, but it does provide local communities the predictability they need to plan for the future. Thank you for considering my perspective.

Thank you for taking a moment to help set the record straight and support responsible, transparent management of Oregon's state forests.

Kindly,

Larry and Rachel Hall
