Measure, Appointment or HB4105  
Topic:

I am not in favor of increased logging in Oregon state forests at the expense of fish, wildlife, clean water, recreation, and carbon storage - or granting the timber industry a special right to sue the state over logging levels.

As Flyfisher, I'm aware of how depleting the forest effects our fish & rivers. I'm fascinated how just depleting salmon will damage an entire ecosphere of interdependent species of plants and animals.
