On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

I oppose this bill. We need to preserve the health and access to local farms. We know that semiconductor companies often create huge environmental impacts. The cost and most of farm land does not out weigh the dangers and harm this would cause. We are already surrounded by large corporations who do not care for the health of oregonians.

Our family supports a local farm, where we purchase nearly all of our vegetables and fruit for our family. They are established right at the boarder of this line. This could have serious impacts on our access to local produce.

I urge you to not allow this to go through.
