

Submitter: Alexander Hada  
On Behalf Of:  
Committee: Senate Committee On Finance and Revenue  
Measure, Appointment or Topic: SB1586

I am against enriching big tech at the expense of local communities. I am vehemently opposed to a data center that will destroy the environment, raise our power bills and provide no jobs and no taxes to the citizens of Hillsboro. And your language saying it cannot be used for a data center alone belies that you have worded it in a way that can be circumvented in a loophole. I am against this expansion especially since we're still dealing with Morrow County, Oregon and the water crisis they had from Amazon data centers exacerbating the nitrate poisoning in their water supply. And now you want to give more to Big Tech Corporations at the expense of the people. Do not vote for this.
