I oppose SB1599!

Why is a legislative body so determined to ignore the direction and letter of the constitution of our once great state as well as the voices of the people of Oregon whom you are supposed to represent? There is a process and you, as an elected body by the people, are ignoring the will of the people and that process. What are you trying to gain by this foolishness? Do you, as an elected body, have an agenda that is not for the best interest in the entire populace of our state? Are there specific groups you have made promises to and now those promises are in danger? I am a simple person, and it is very clear to the most obvious observer that there is something going on that shows you really do not want to do the right things... theses are sad days for the once mighty Oregon... our leadership is failing and seems to be willing to do whatever it takes to completely destroy this state.
