

Submitter: Kelly Rhodes  
On Behalf Of: Row River Rural Fire Protection District  
Committee: Joint Committee On Ways and Means Subcommittee On  
Capital Construction  
Measure, Appointment or Topic: SB5701

As a resident of Dorena, I would like to voice my support of including allocation of capital construction funds for a permanent fire station in Disston. Not only would response time from this station to my house (approximately 5 miles) be minutes but should also improve the ISO rating for our area and help to drive down homeowner insurance rates. Driving down those costs will help to offset the cost of the tax approved by our community for the formation and operational expense of the fire district.

Building a permanent fire station at this eastern end of our Row River Valley will go a long way towards improving emergency response times and in protecting the lands beyond our valley from wildfire spread from our community. Please support the continuation of making our community a safer place. Thank you for your time.

Kelly Rhodes
