

Submitter: Tyler Reed  
On Behalf Of:  
Committee: Joint Committee On Ways and Means Subcommittee On Capital Construction  
Measure, Appointment or SB5701  
Topic:

Capital Construction Co-Chairs Girod and Nosse,

I am writing to express my strong support for Casa Mariposa and its request to the Capital Construction Subcommittee to assist the Astoria community in purchasing and repurposing a former church into a permanent home for essential community services on the North Coast.

Casa Mariposa provides a safe, stable, and affordable environment for families in need, while also offering practical assistance, community connection, and volunteer-supported services that help residents overcome barriers and achieve long-term stability. Investments like this strengthen families, support children, and create healthier, more resilient communities, outcomes that align closely with the needs we see across our region.

I appreciate your consideration of this request and your continued leadership in supporting community-based solutions that serve Oregon families.

Best,

Dr. Tyler Reed  
Superintendent  
Neah-Kah-Nie School District
