

February 13, 2026

Dear committee members:

I am writing to support the HB you are considering today in regard to a Sub-Station in Disston OR for the Row River Rural Fire Protection District.

I am a member of the Board of Directors of the Fire District and as such fully support and understand the critical need for a sub-station at the far edge of our district boundary. Having equipment and trucks housed at this location will be a huge benefit to not only structures and residents but to the surrounding woodlands and the city of Cottage Grove watershed area.

Thank you for your time,

Marilyn Vann

Secretary RRRFPD Board of Directors.
