

Submitter: Gwen Farnsworth
On Behalf Of:
Committee: Senate Committee On Finance and Revenue
Measure, Appointment or Topic: SB1586

The Act would change tax and other laws and rezone lands to aid economic growth.

Adds rural reserves in Washington County to Metro to be used for high-technology and advanced manufacturing purposes.

Supporters of these land grab bills keep telling us how little they want, and how little we will notice what they take. So why do they devote so much time and energy to them?

Because every passed bill removes one more stone from the dam and each stone removed makes it easier to breach the dam. They think they don't need the water, and can make loads of money from the newly dry land. Unfortunately they don't need to irrigate, plant, cultivate, harvest, or any of the other endless work involved in successful farming. So they have time to write land grab bills and cultivate politicians endlessly until they succeed.
