

Submitter: james andersen  
On Behalf Of:  
Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water  
Measure, Appointment or HB4105  
Topic:

there is no way to log in a nature habitat protected site without decimating reliant species and wildlife in a direct violation of the endangered species act and the environmental protection agency guidelines. there will be absolutely no loopholes that will make this okay or legal. we need to uphold these protective laws set in place so these atrocious acts cannot take place for companies to ravage the trees on public lands maintained with state and local taxes with logging while taking home mass privatized profits
