House District 3 Capital Project Request

Grants Pass Fire & Rescue Station 7 Replacement

Fire and Rescue stations are critical infrastructure. Southern Oregon clearly needs a new and updated facility.

Recently, I had the opportunity to tour the 1972 Hillcrest Grants Pass Fire station (Station 7). I greatly appreciated meeting with some of our first responders as well as seeing the facility firsthand. However, the facility either needs to be updated, or a new facility built. The current facility is mostly sound and can function very nicely as an auxiliary station for many years if it is not the primary station. The obvious solution is to build a new one as proposed and keep the old one too. This will maximize capacity for the city and surrounding area. I support of the City of Grants Pass' request for funding to restore the Hillcrest Fire Station (Station 7).

The ability of our firefighters to protect the City of Grants Pass in addition to responding to wildfires across Southern Oregon is crucial to the preservation of our beautiful state as well as many families and their homes.

Best Regards,
