

Submitter:

Ann Miller

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4001

As mother of three wonderful adults, I was actively involved in their welfare and education. It saddens me to know the current "regime", has little regard for children with growing minds and bodies. The current affected children in detention will never be the same and will regress. I want to see immigrant children supported as much as and more than affected adults . They deserve loving care and due process. Please pass this bill. Thank you for your service.
