Committee: Senate Committee On Commerce and General
Government

Measure, Appointment or SB1514
Topic:

I am writing to express my strong support for SB 1514, which seeks to repeal the provisions established under HB 3115. While the original intent of HB 3115 may have been to provide clarity regarding public spaces, its implementation has created a rigid legal framework that often hinders local municipalities' ability to address homelessness with compassion and flexibility.
