Committee: House Committee On Labor and Workforce
Development
Measure, Appointment or Topic: HB4011

I OPPOSE [HB 4011].

Public Schools are changing in Oregon and from my perspective, the change is not going to fix the multiple problems school districts are facing-class size, student discipline, wages cost of living and changing populations of students.

Within a couple of years. the children of Illegal Aliens will significantly disappear.

Parents with financial means are already pulling their children out of public schools and reenrolling them into private schools.

Public Schools infrastructure capital programs are also under threat.

In short, Oregon schools are running out of options and money.

[HB 4011] is only going to complicate matters.

Schools need a reliable funding structure, until the funding issue is resolved-you are wasting your time with [HB 4011 (-1)] or any variation thereof.
