

Submitter: Mary Ford
On Behalf Of:
Committee: Senate Committee On Commerce and General Government
Measure, Appointment or SB1514
Topic:

Please oppose OR SB 1514. This bill would *remove* the standard of "objective reasonableness" from decisions affecting the lives of unhoused people in my community, who have almost no options, and many nearly insuperable barriers to safe living. There but for the grace of God go any of us. If you would wish your family to be treated with "objective reasonableness" should they fall onto hard times, then please oppose this bill! If you would want your mother, your children, your grandchildren, treated, at a minimum, with "objective reasonableness", then please oppose this bill.

By contrast, supporting this bill just makes life harder not only for the immediately affected individuals, but for the entire community of people concerned for their wellbeing.

Also, supporting this bill makes those who do look just plain mean and heartless. Please oppose SB1514. It's almost literally the least that can be done for people living on the edge.
