

Submitter: Kristin Petersen

On Behalf Of:

Committee: Senate Committee On Commerce and General Government

Measure, Appointment or Topic: SB1514

Chair Mark Meek and Members of the Committee,

My name is Kristin, and I am a resident of Portland Oregon. I am writing in strong opposition to SB 1514.

SB 1514 would repeal Oregon's statewide "objective reasonableness" standard that currently governs how local governments regulate the use of public property by people experiencing homelessness. This standard exists to ensure that restrictions are fair, balanced, and grounded in reality especially when people have nowhere else to go and day shelters are not enough.

Repealing this protection would make it easier for local jurisdictions to enact broad or punitive restrictions without guaranteeing shelter or housing alternatives. That approach does not solve homelessness. It increases instability.

From my experience (include your experience e.g., as a front line worker / resident / etc. who sees ____), enforcement-first policies:

Displace people without creating housing

Create legal and financial barriers that make it harder for people to secure housing

Increase strain on emergency systems and service providers

Shift public resources toward enforcement rather than homeless prevention and housing

Oregon's homelessness crisis is rooted in structural issues: a shortage of deeply affordable housing, rising rents, stagnant wages, and gaps in behavioral health services. SB 1514 does not address these root causes.

It is also important to acknowledge that homelessness in Oregon is not race-neutral. Black, Indigenous, and other communities of color are disproportionately impacted due to historic and ongoing systemic inequities. Policies that expand enforcement authority risk deepening those inequities.

Real community safety comes from stability. It comes from investing in eviction prevention, rental assistance, behavioral health services, and culturally responsive supports which are all actual housing-first strategies. We cannot enforce our way out of a housing crisis.

I urge you to reject SB 1514 and instead prioritize solutions that affirm dignity, promote equity, and create lasting pathways to housing stability.
Thank you for your time and consideration.
