Senate Committee On Rules

Measure, Appointment or Topic:

SB1574

Dear Comrades,

Ain't one-party rule just grand!? However, regarding SB1574, I suggest you dictate moving the voting age to 7 rather than 17. That should give our Glorious Marxist teachers' unions a good two years to indoctrinate all the little children to vote for the most avid haters of "personal responsibility, goal-setting, Christian values, and that most hated concept of all – striving for excellence."

I figure by age 7, Oregon teachers will have convinced the kids that Chairman Mao was a much better leader than those running dog capitalist racists like Washington and Lincoln...that all the cool kids are gearing up to change their sex...and that many classroom hours will have been spent on "how to be an activist."

Just think of all the new democrat voters you can create – even more than those from harvesting the votes of dead people, illegal immigrants, and all the homeless/addicts who have moved to or been bussed to Oregon because Oregon's politicians are always looking to bribe or buy new voters, just like in Minnesota.

You really are not even pretending to serve Oregonians, are you. May God have mercy on you.

Dave Fenner

Eugene, Oregon
