Dear Messrs. Girod and Nosse, Co-Chairs of our Capital Construction sub-committee,

Please please please Astoria needs your support for the Casa Mariposa project!

Our community is in dire need of a safe, warm, dry place for meeting and community building to take place. Casa Mariposa represents a chance to level-up our community infrastructure, stabilizing and strengthening our efforts to provide community services.

I've volunteered for housing and homelessness services in different towns around Oregon and I can tell you that the lack of a space like this is a fundamental obstacle to projects that are caring for our most vulnerable neighbors. We need this!

Thank you for your time and consideration,

Angus Maguire
