Greetings Judiciary Committee

HB 4001 is a waste of tax dollars that we Oregonians are sick and tired of seeing out taxes go to wasteful actions. Those here illegally are committing federal crimes being here illegally and need to be sent back from where they came from. There are no issues in Florida, Texas, or even Minnesota in past week. Passing this only allows more by the likes of Kevin Daniel Sanabria Ojeda, 24, and Alexander Moises Arnaez-Gutierrez, 25 who abducted, stole her bank card, tortured her by using power drill and used it on the woman's hand, and dumped her after shooting her in the face on I-95.

Where is the support for those who are victimized by illegals? There is NONE!!! These victims are shoved to the side and leftovers to be forgotten and leaving US Citizens, as in part Oregon, as second class while who blow faces off are treated as first class citizens. This sort of illegals do not add to the community of anything, not even taxes.

Further, Oregon needs to have a relook at Constitutional law, as Oregon leaders seem to have no idea what US civics is, or even what the Constitution is. Article 6; Clause 2 states "This Constitution, and the Laws of the United States which shall be made in Pursuance thereof... shall be the supreme Law of the Land..."

In other words: Federal law overrides conflicting state or local laws.

State courts must follow federal law when there is a conflict.

States cannot nullify valid federal law.

And for precedence in case anyone needs an example:

McCulloch v. Maryland (1819) – States cannot interfere with federal powers.

Printz v. United States (1997) – Feds cannot compel state officers to enforce federal law.

Arizona v. United States (2012) – Federal immigration law preempts conflicting state law.

I oppose this HB 4001 completely. This is a waste of time. I would be more supportive of a bill that would seek what damages illegals have done.
