1700 acres of prime farmland brought into the UGB, which goes against the Grand Bargain? I disagree wholeheartedly!

1. They got S and N Hillsboro in the 1st bargain.
2. There are still areas that can be developed within the UGB.
3. The promise of "no data centers" could change. Just like THIS bill is a change from the Grand Bargain! And, there's even a contingency for putting in data centers!
4. This land is good for farming!
