

Submitter: Autumn Augustus  
On Behalf Of:  
Committee: Senate Committee On Finance and Revenue  
Measure, Appointment or Topic: SB1586

We should not sell off public lands for wasteful infrastructure. The vital green space, clean water and valuable trees immediately lose that value when placed in the hands of corporate greed.

Every single tree in this area needs to be documented.. any tree deemed to be of substantial size above 20 inches in diameter should be saved. Any tree deemed to be healthy and older than 100 years old should be protected at all costs.

We cannot buy back the time it takes to cultivate old growth trees that our state and region are renowned for.

Money should be set aside for more survey and protection work.

Thank you for standing on the right side of history.

Green spaces over greed.
