

Submitter: Hope Vaccher
On Behalf Of: Governor McCall
Committee: Senate Committee On Finance and Revenue
Measure, Appointment or Topic: SB1586

This Bill is an example of misuse of power. Too many issues in one bill, and no indication any of the sponsors gives a damn about anything other than Money. You all do know that data centers don't create jobs and that Intel recently laid off 11,000 employees, correct?

I have been working to protect farm and forest lands for farm and forest uses for over 30 years. Many of my colleagues have similar experience in this field. Yet so many electeds listen only to monied interests who, in many cases, are actually anti-government activists receiving government contracts and government assisted tax credits and abatements.

The session after session fist punches to SB 100 need to stop.
