

Submitter: Judy Schilling

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB1586

Hello,

I am writing in opposition to SB1586 which would expand the Urban Growth Boundary by 1,700 acres and open it up to potential industrial use. There is pressure to put in more data centers which I feel are a disaster to our environment, using our water and electric resources, as well as adding harmful residue to the environment. This is viable farm land and should be kept as such or at least developed in a way that benefits people and nature, not data centers and other industrial waste makers.

I have lived here 50 years and seen the results of poor planning and lack of concern for the future environment. Now is a good time to say no on SB1586. Thank you,

Judy Schilling
