Measure, Appointment or SB5701  
Topic:

The North County Food Bank is a tremendous support for the students and families in the Neahkahnie School District. I am a teacher at the Neahkahnie High School and students and families are in need of food assistance often and consistently. I refer students and families there every week. The food bank is a safety net that makes sure children don't go hungry in this community. The new building is essential to maintaining the much needed presence and offerings of the food bank. Please allocate funding to this desperately needed organization.
