Measure, Appointment or Topic: SB1586

This testimony is submitted in opposition to Senate bill 1856. We need our farmland and we do not need industrial sites where data centers can be built creating low paying jobs and using up our water. If this bill were passed, it would also clear room for building detention centers, which is important in my mind as well. Please vote no. Thank you very much for your attention to this matter. In gratitude for your service,
