Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB4105

I am writing in opposition to this measure. I object to the focus of forest land management on the maximum amount of timber that can be extracted from the land. I believe that the long term management of the forest is the proper objective. Timber extraction should depend on what's good for the land. This measure seems to perpetuate the myth that governments can generate a reliable alternative to taxes by extracting natural resources and turning them into cash.
