

Submitter: Christopher DiMarco
On Behalf Of:
Committee: Senate Committee On Finance and Revenue
Measure, Appointment or Topic: SB1586

As a born and raised Oregonian who grew up in Hillsboro and has lived in the greater Washington County area all their life I vehemently oppose SB1586. This proposed apportioning of rural land does not benefit the people of the relevant communities and will actively make their lives worse by degrading the environment they enjoy and depend on. The interests of big businesses are not the interests of the communities of Banks, North Plains, and Hillsboro in this case. One of Oregons greatest assets is it's natural areas and ripping up and poisoning rural land to construct a concrete box that will over time poison and degrade the local watersheds and waterways is diametric opposition to a core Oregon value. This measure is an attempt at a short term gain for a few wealthy interests at the expense of communities, families, and children for decades to come and beyond. No to SB1586.
