HB4136

I STRONGLY OPPOSE HB 4136 AS A SOCIALIST AGENDA.

This comes from a socialist agenda transferring the wealth to the poor. It isn't a hand up, it's a debilitating hand-out. A way to support illegal immigrants instead of getting them established as citizens.

Finance impact would be a significant loss of tax deductions for many folks such as 2nd home, rental properties, investment properties, unless the property is being sold or actively marketed for sale. This will make rentals go up in price - where is the affordable housing priority?
